Globalscope Conferences

We are a global family and therefore highly value and prioritize “family” gatherings as much as possible. The key to our success is our relationships with one another so having the opportunity to personally connect in a setting to openly discuss deals is of paramount importance.

Globalscope members meet at private, members only, semi-annual conferences, in rotating host cities internationally, which focus on:

Enhancing
deal-flow

Sector
trends

Sharing
mandates
and pitches

Industry
thought
leaders

Marketing
initiatives
benchmarks

Mentoring
best
practices

Celebrating
our
successes

Socializing
including
companions

Globalscope also hosts regional events within Europe, Asia, and the Americas, to nurture deal discussions specific to geographical mandates.
